

# Job Description

**Job Title:** Construction Manager

**Reporting To:** VP of Asset Management

**Job Function:** Project Management

**Job Location:** Cleveland, Ohio

## **Summary:**

The Construction Manager will be responsible for the overall project management of selected improvement, rehabilitation, and repair projects related to our commercial real estate portfolio. The Construction Manager must be an analytical and creative thinker, able to conceptualize a project, assemble the appropriate team, and successfully implement each project. This role will be a member of the Real Estate team, work closely with the Finance, Legal, and Project Management teams, and will be the main point of contact with architects, engineers, consultants, contractors, and property management personnel.

GBX Group is an innovative, entrepreneurial organization. Working with our investors, we are dedicated to the revitalization of historic real estate properties in some of the greatest cities in the US. Our culture is unique and very important to us. We challenge one another, work hard and truly enjoy how our work makes a difference to people in the communities we serve. We are looking for someone who is smart, driven and passionate about being part of a team that makes a real impact to join GBX as our Construction Manager.

## **Essential Duties and Responsibilities:**

- Develop plans, specifications, evaluations, and recommendations related to capital project needs.
- Execute capital improvement and rehabilitation projects, including developing plans and specifications, bidding and contracting, managing inspections and payments, and ensuring timely and quality completion.
- Develop and implement long term and major reinvestment capital plans.
- Participate in planning, pricing, and review of new construction projects.
- Coordinate the efforts of all team members, including architects, engineers, consultants, contractors, and property management personnel, to successfully achieve goals.
- Identify and directly source key materials.
- Identify, engage, and build relationships with capable contractors to ensure safe, efficient, timely, and quality work.
- Seek appropriate value engineering and quality improvement alternatives.
- Create and maintain project budgets and draw requests.
- Implement effective programs to control costs and deliver timely work.
- Ensure appropriate inspection and quality control of work.
- Prepare regular reports for internal stakeholders.

## **Education / Experience:**

- 5+ years construction management experience.
- Bachelor's degree in construction management or related area of study.

# Job Description
