

A Message to our Friends and Colleagues,

GBX Group is closely monitoring the impact of the Coronavirus (COVID-19) pandemic and the evolving governmental response. Our top priority is the safety and welfare of our GBX employees, their families, our investors, partners and vendors. As such, we are following the recommendations of the CDC and state health officials. GBX will do its part to flatten the curve in order to slow the spread of COVID-19.

Subsequent to the Stay at Home Order issued by Ohio Governor DeWine, all GBX employees will be working at home until further notice. In addition, as recommended by the CDC, GBX employees will not be conducting any in-person meetings with advisors, investors, partners or colleagues in order to minimize interactions among individuals. Although the GBX workforce is working remotely, our firm's robust technology infrastructure will allow us to remain open for business and responsive to our investors and partners. GBX employees remain available for calls and teleconferences.

Thank you for understanding and your support during these challenging times. We wish that you and your families remain safe and healthy. Together, we will get through this unprecedented upheaval.

Sincerely,

Drew Sparacia
CEO
